

CLYDE Youth Survey

Community-Level Youth Development Evaluation

CLYDE is a research-based youth survey that collects current and relevant data regarding youth substance use, developmental risk and protective factors, and other key community characteristics

Fast & Accurate Results

- Completely automated system cuts reporting time to two weeks or less
- Interactive tools available to visualize and explore your data
- Live tracking for number of surveys completed
- Trend reports available to incorporate and visualize your youth survey data over time

Stress-Free

- Easy to implement with clear and comprehensive instructions
- Average completion time of 25 minutes

Affordable

- Cost per online survey is \$2.75
- Reports included at no additional charge

Current

- Incorporates questions on emerging substance use trends and community-level causes and conditions
- Updated with culturally responsive language
- Updated to capture new trends, technology, and data needs
- Satisfies DFC and other grant-funded reporting requirements
- Available in both English and Spanish - at NO extra cost!

Flexible

- Administer online
- Add custom questions to fit the needs of your community
- Select question groups that fit the needs of your community
